

Study related post operative care is not included in the LAMS per diem rates. Any study related post operative care that is required is the responsibility of the Principal Investigator. The Investigator can request that LAMS perform the post operative care but a service fee will be charged per hour. The current approved service rate for Research Services will be applied during regular business hours Monday thru Friday. After hours or on weekends and holidays the Overtime Research Assistant rate will be applied. Please see the current Per Diem Rates for pricing.
